### **DR. JAIN – MY PERSONAL EXPERIENCE**

*by Carole Ehrler*

Plastic/Reconstructive surgery is for some but not all people. For me, it was very important and an exciting event. Being a "late bloomer," it took me years to feel comfortable in my own skin, and by the time I had accomplished this feat, Mother Nature came along and said, "OOPS! You miss it.

So sad! Too bad!" I decided I was not going to be beaten by the law of gravity. Taking matters in my own hands, I began interviewing Plastic Surgeons.

I selected Dr. Vivanti Jain, who is certified by both the American Board of Plastic Surgery and the American Board of Surgery. He received his Doctor of Medicine degree from the

University of Minnesota and completed his residency in plastic surgery at UCLA. Dr. Jain is the plastic surgeon for the Women's World Cup Soccer Team. He possesses extensive experience in performing aesthetic procedures, including breast augmentation, reduction and lift, facial aesthetic surgery, such as facelift, blepharoplasty (upper and lower eye lift), and brow

lift, liposuction and abdominoplasty (tummy tuck). In private practice since 1996, he is up to date on the latest techniques and uses state-of-the-art techniques including endoscopic, laser and ultrasonic procedures. I thought I would have to save for

years to afford one of the top surgeons but was surprised when I had my consultation with him and compared prices. I am so grateful for Dr. Jain's skill and feel like a new woman. I had very little swelling and hardly any bruising. Within a week, I could wear makeup and put my best face forward!
